

Discover the Top 10 Cancer Hospitals in Mumbai

Tumor diseases, like cancer, pose many problems for treatment because of their multifactorial origin and their various mutations. Today, the levels of mortality among cancer patients have reduced due to the development of modern equipment and treatment methods. Prevention, timely detection, discovery of various forms of treatment, and excellent nursing homes are factors that help fight the disease. This blog lists the top 10 cancer hospitals in Mumbai, Navi Mumbai, and Thane.

There are various prospects in the medical field, and cities like Mumbai, Navi Mumbai, and Thane play significant roles in the advancements. These regions of Maharashtra have some of the best cancer hospitals that offer all the equipment and services of highly qualified oncologists. Such dynamic cities present comprehensive cancer care services to patients, enabling them to receive the best care possible during their treatment. The following is a list of the top 10 Cancer hospitals in Mumbai, Navi Mumbai, and Thane.

Mumbai

1. Tata Memorial Hospital:

One of the city's oldest and most respected hospitals, Parel's Tata Memorial Hospital focuses on cancer treatment. The hospital provides a range of services, including surgery,

chemotherapy, and radiotherapy, among others. These top-notch services, along with the R&D and treatment procedures, make the hospital one of the best choices in cancer treatment. Tata Memorial Hospital also undertakes several clinical trials so that the patients have access to the best form of treatment.

2. Jaslok Hospital and Research Centre:

Located on Peddar Road, Jaslok Hospital offers the best cancer treatment options. These services include chemotherapy, immunotherapy, and MRI-guided focused ultrasound surgery. The hospital implements the latest technology and has a knowledgeable staff that helps maintain the quality of care. The cancer treatment centre is also a big player in R&D around cancer and, hence, in developing new treatment methods for the disease.

3. Saifee Hospital:

Saifee Hospital is situated on Charni Road. The hospital employs the latest technologies, such as the Da Vinci Surgical System, to treat cancer. The hospital offers comprehensive oncology care services in robotic surgeries, 3D digital mammography, and more. Focusing significantly on patients, adept oncologists provide quality care.

4. HCG Cancer Centre:

Borivali's HCG Cancer Centre specializes in radiation oncology and offers the most precise radiation therapy using the Elekta Versa HD and CyberKnife. Other treatments like bone marrow replacements, chemotherapy, and immunotherapy are also available here. The team of experts here specialises in recommending unique treatment plans for every patient.

5. Nanavati Super Speciality Hospital:

Offering 350 beds for cancer patients, Vile Parle's Nanavati Hospital is one of Mumbai's best cancer care centres. What is given includes radiation therapy, targeted therapy, and chemotherapy. This particular hospital has received a noble reputation for a more overarching treatment plan, offering nutrition, rehabilitation, and palliative care. Nanavati Super Specialty Hospital also aims to deliver care that integrates the physical, emotional, mental, and spiritual levels of patients.

6. Kokilaben Dhirubhai Ambani Hospital:

Kokilaben Hospital, located in Andheri West, has a fully-fledged oncology unit. The care centre uses modern technologies and has highly qualified personnel. The Ambani Hospital

is famous for enhancing desired results thanks to its patient-centered approaches. The oncology department here provides radiation therapy and chemotherapy and performs surgical operations.

Navi Mumbai

7. Apollo Hospitals:

Situated in Navi Mumbai's Belapur, Apollo Hospitals offers a full range of oncology services with its modern diagnostic and treatment services. This hospital, famous for its patient-oriented policy, offers all necessary cancer treatments under one roof. The expert team utilises advanced equipment to ensure that patients receive responsive treatment and care.

8. Fortis Hospital:

Multispecialty hospital facilities present in Vashi include Fortis Hospital, which has focused on a state-of-the-art provision and oncology wing. It specializes in cancer care and offers medical oncology, chemotherapy, radiation oncology, and surgical services. One of the vital concerns of the hospital is to guarantee complete and quality patient care. Fortis Hospital provides other supportive services, including dietary counselling and orthopaedic pain management.

9. MGM Hospital:

MGM New Bombay Hospital, located in Vashi, has extensive cancer treatment services. The treatments given in the hospital are chemotherapy, radiation, and surgery, which fall under surgical oncology. It has all the modern facilities, like the latest 3 Tesla MRI, and well-equipped operation theaters. Expert oncologists serve at the MGM New Bombay Hospital by offering the best solutions to the patients. The hospital also incorporates the concept of integrative care which includes nutritional consultation as well as rehabilitation services.

Thane

10. Jupiter Hospital:

Thane's Jupiter Hospital provides comprehensive services relating to cancer treatment. These services entail chemotherapy, radiotherapy, as well as surgical procedures concerned with cancer. The hospital uses state-of-the-art technologies to provide an individualised approach to working with patients. At Jupiter Hospital, the oncology department specifically focuses on delivering quality cancer treatments using the most appropriate technologies.
